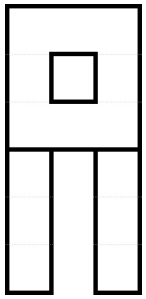
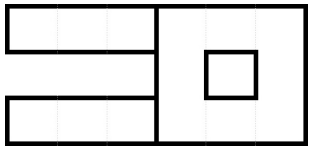
Degree 33 - Sign 35

Lifting Oneself



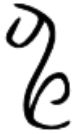


RISING: SUN, RISING AND SHINING OVER THE EARTH

When I am earth yielding, light casting;

Then I am the sun, making my light bright and my greatness abundant as I go out and add to the light of the world.

Inside, I am nourishing strength by knowing heaven's leading impulse (illuminating the virtue inside of myself by increasing my knowledge and enlightening myself to that which was previously unknown); and



Outside, I am extending enlightenment of earth's heavenly yield (illuminating the world outside of me by showing the standards of measuring whether an inclination is or is not enlightened.)
